CL

Model. Not actual patient.

The future is clear

AND WITH AVICLEAR, IT JUST KEEPS GETTING BETTER¹

AviClear is the only acne treatment of its kind. Engineered with a revolutionary 1726 nm wavelength that's safe for all skin types, it selectively targets and down-regulates the sebaceous glands, eliminating acne at the source without the need for prescription medications.

2x

Clearer skin in a flash

Research indicates that at 1726 nm, pure sebum absorbs 2x more energy compared to H₂O.²

Before now, controlling sebum and offering long-term clearance was offered only to the most severe patients after failing other treatments, and those who could comply with the stringent requirements.³

Resolves current acne

No topicals or antibiotics

Helps prevent future acne

No lab or iPLEDGE requirements

Safe for all skin types

No harmful side effects

Results may continue to improve with time¹

No downtime⁴

Another cool feature your patients will appreciate:

AviClear is equipped with exclusive AviCool™ sapphire skin cooling and smart sensors.

- Maximize patient comfort and safety
- Maintain skin's temperature during treatment

Moving Forward

Do you have patients who would prefer a drug-free option that offers long-term results in just three months?

What's possible in three 30-minute treatment sessions?

80% 87%

response rate at 3 months
($P < .001$) with 91%
responding overall^{4*}

satisfaction rate
at 1 month^{1**}

*Treatment success was defined as clearance of at least 50% of inflammatory lesions three months after the final treatment session.

**Satisfaction was defined as patients reporting being either satisfied or very satisfied.

INNOVATIVE THINKING

EXTENDS BEYOND JUST OUR DEVICES

Model. Not actual patient.

We're invested in your future, too.

READY FOR A REVOLUTIONARY, REVENUE-GENERATING OPPORTUNITY?

Introducing the Avi360™ experience, a brighter way to build partnerships. To add AviClear to your practice, all it takes is a startup investment of \$5,000 that covers your annual license to use the device, plus a per-patient fee to get everything that comes with the Avi360 experience.

- An array of consultation and marketing tools to drive patient awareness and demand
- 24/7 AviClear service support
- Ongoing on-demand practice and educational support for AviClear
- Training, coaching and tools to quickly integrate AviClear into your practice
- Per-patient fee – 50% or \$1,500 of the amount you charge each patient, whichever is higher*†

* Treatments can be delegated to a qualified healthcare provider as determined by state laser licensure laws

† In accordance with Cutera Terms and Conditions

Success starts with the Cutera App

Not only does the Cutera App enable the treatment process, it gives your patients more control of their skin health, helps you identify AviClear™ candidates and may attract future patients to your practice.

The Cutera App takes the guesswork out of patient identification and may attract patients interested in AviClear toward your practice.

Features include:

- A personalized, digital skin assessment that determines skin needs, severity and recommended treatment options
- Additional resources and news related to skin health and beauty
- Appointment management and treatment progress tracker

The future has arrived.
Ask your Cutera Representative
how to be a part of it.
