ABOUT US

SR COSMETICS is a global leader in professional cosmetics and skincare innovation, founded over 20 years ago by Shuli Rodrig, a decorated cosmetologist and certified naturopath.

The company's core values emphasize a deep respect for nature, the planet, and humankind. Our products are crafted to meet the highest quality standards and global clean cosmetic requirements, with careful selection of ingredients sourced from five continents. Each product is formulated exclusively by Shuli, using advanced technology, green chemistry, and botanical, plant-based ingredients. SR COSMETICS prides itself on meticulous research and rigorous testing, ensuring clean, cruelty-free, vegan formulas that incorporate botanical active ingredients and advanced hygienic packaging.

All of this is achieved in our state-of-the-art manufacturing facility, where the latest aesthetic philosophies and methods are implemented.

PROFESSIONAL ACNE PROTOCOL INTRO

Nature has long held the key to beauty and skin health, and modern science continues to unlock its potential. Advances in botanical research and cutting-edge technology now allow us to harness powerful plant-based extracts, creating effective solutions for a wide range of skin concerns. Medicinal plants are emerging as a promising frontier in skincare and wellness, with the potential to revolutionize approaches to treatments.

The products in this protocol are formulated with potent botanical ingredients known for their natural healing properties, expertly blended with proven elements from traditional skincare. This synergy of nature and innovation delivers a targeted solution designed to restore balance, promote clear skin, and reveal a healthy, youthful glow.

PROFESSIONAL ACNE PROTOCOLS | MILD ACNE

STEP

1

Clean skin with 3 pumps of the **Herbal Cleansing Mousse**. Massage into the skin, wait 1 minute, and rinse with water.

STEP

2

Using a cotton cloth, apply 10 pumps of the **Whitening Peeling Acid** to the entire facial area. In a small bowl, mix together 2 pumps of the **Light Tomato Peeling** and 4 pumps of the **D. Immediate Ageless Serum**. Massage for 5 - 10 minutes.

STEP

3

Apply ½ teaspoon of the **Caliente Peeling Mask**. On top of that, apply 4 pumps of the **One Step Peel** and massage them into the skin up to 10 minutes.

*You may cover with a dedicated facial nylon / plastic wrap which helps heat and soften the comedones. Remove wrap and drain.

Tip: You may apply an additional 4 pumps of the **One Step Peel**, massaging gently to generate warmth and stimulate blood circulation, which helps improve the skin at multiple levels.

STEP

4

Disinfect face by applying 10 pumps of the **Crystal & Silk Peeling** on a cotton pad and gently go over the entire facial area. In a small bowl, mix 1/3 teaspoon each of the following: **Calm Forte + Cream Mask**, **Caviar**, **Honey Relaxing Mask**, and **DMAE Face Mask**. Apply the mixture to face, leave for up to 20 minutes, and remove with water. Conclude by applying 3 drops of the **Peel Young**, 2 pumps of the **D. Immediate Ageless Serum**, and 2 pumps of the **D. Herbal Calm Cream Forte**. Massage until absorbed.

PROFESSIONAL ACNE PROTOCOLS | MEDIUM ACNE

<p>STEP 1</p>	<p>Gently clean the skin with 3 pumps of the Herbal Cleansing Mousse. Leave it on the skin for 3 minutes and rinse with water.</p>	
<p>STEP 2</p>	<p>Apply 6 pumps of the Crystal & Silk Peeling on a cotton pad over entire facial area, wiping gently with the cotton pad so there is no damage to any pustules. Additionally, you can apply 10 pumps of the Whitening Peeling Acid to the face using the same method.</p>	
<p>STEP 3</p>	<p>Apply 4 pumps of the One Step Peel and on top of that, use a soft brush to apply 2 pumps of the Light Tomato Peeling to the skin. Wait 10 minutes and remove with water. (There may be slight redness. This is normal.)</p>	
<p>STEP 4</p>	<p>Apply ½ teaspoon of the Caliente Peeling Mask to entire facial area. After up to 10 minutes, remove with water. (If necessary, now is the ideal time to proceed with comedone extraction.)</p>	
<p>STEP 5</p>	<p>Apply 15 drops of the Peel Young directly on the skin. Work both horizontally and vertically and wait for any frosting that may occur (Not always). Frosting is when parts of your skin turn white during the peeling process. The second layer, if required, should be applied in a pinpoint manner on any lesion or pustule. Conclude with a medium / thick layer of the Caffeine Renewing Cream Mask. Inform your client in advance about the peeling process, during which time the skin tone may turn to a brownish hue, become dry and peel. You must keep in touch with your client on a weekly basis. Maintenance treatment is required at home during the peeling process and afterwards.</p>	

PROFESSIONAL ACNE PROTOCOLS | SEVERE ACNE

Treatment of cystic acne is performed for the most part by peeling and continuing maintenance treatment at home. The series of peeling sessions using the preparations will require 3-5 treatments, at intervals of two weeks.

STEP 1

Clean the skin with 3 pumps of the **Herbal Cleansing Mousse** and rinse with water. Apply 4 pumps of the **One Step Peel** and on top of that, use a soft brush to apply 10 pumps of the **Crystal & Silk Peeling**. Wait 2 minutes. Use a soft brush to apply 2 pumps of the **Light Tomato Peeling** and on top of that, apply a thick / medium layer of the **Caliente Peeling Mask**. Remove with water after up to 15 minutes.

STEP 2

Apply 20 drops of the **Peel Young** directly on the skin.
Important: Be careful to keep the peel away from the eye area.

STEP 3

Put 5 pumps of the **Grand Active Serum** into a small bowl. Using a cotton swab, apply only on the cyst lesions.

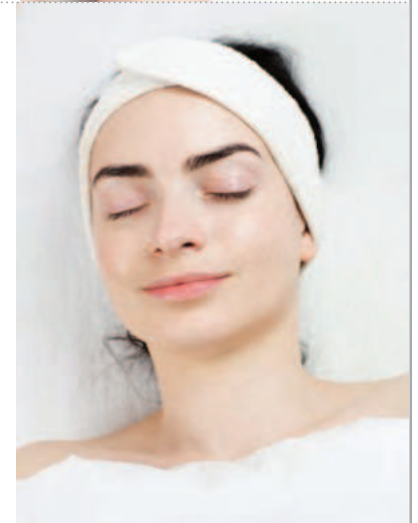

STEP 4

Conclude by applying a thin layer of **Caffeine Renewing Cream Mask** over the entire facial area. Leave on overnight and allow it to absorb into skin. When the peeling is being applied, you may notice a change occurring in the facial skin, turning it white. This change in skin color is known as frosting, when parts of the skin turn white during the peeling process. This does not always occur.

The peeling will take place from 5 days to two weeks later. Ongoing maintenance of the skin will be provided according to the change in appearance of the lesions. This procedure may be repeated in approx. 3 weeks.

If the client does not want to peel, you can conclude with 1/3 teaspoon each of our three masks, **Calm Forte + Cream Mask**, **DMAE Face Mask**, and **Relaxing Caviar & Honey Mask**. Wait up to 20 minutes and rinse with water. Finish by applying 2 pumps of the **One Solution Serum** and 2 pumps of the **D. Herbal Calm Forte Cream**. Massage until absorbed.

PIGMENTATION |

PROFESSIONAL PIGMENTATION PROTOCOL INTRO

Physiological, hormonal, and environmental factors frequently lead to unwanted pigmentation changes, significantly impacting skin tone and clarity. Excessive sun exposure, particularly without sufficient protection, accelerates melanin production, intensifying the appearance of stubborn sunspots and uneven skin complexion.

Addressing these challenges, SR Cosmetics has developed a professional-grade treatment protocol that's been formulated to deliver visible, targeted, and lasting results.

Our scientifically advanced approach effectively brightens skin discolorations, reduces the appearance of pigmentation at all severity levels, and restores an even, radiant complexion.

PROFESSIONAL PIGMENTATION PROTOCOL

<p>STEP 1</p>	<p>Clean the skin using 4 pumps of the Herbal Cleansing Mousse and massage into the skin for 1 minute. Rinse with water. Apply 10 pumps of the One Step Peel and massage gently into the skin until it's absorbed. On top of this, apply 1 pump of the Light Tomato Peeling and massage for 2 minutes. Leave the peel on the skin for up to 15 minutes and then rinse with water.</p>	
<p>STEP 2</p>	<p>In a small bowl, mix 5 drops of Peel Young and 5 pumps of Whitening Peeling Acid. Spread the mixture over the skin using a fan brush. For some clients, a slight redness and firmness of the facial skin may occur.</p>	
<p>STEP 3</p>	<p>In another bowl, mix 10 pumps of Age Defying Night Repair, 10 pumps of Vitamin C Serum, and 10 pumps of One Step Peel. Wet the hands slightly with warm water and massage into the skin.</p>	
<p>STEP 4</p>	<p>In a small bowl, mix 1/3 teaspoon each of the Caviar & Honey Relaxing Mask and Calm Forte + Cream Mask. Apply to the skin and leave for up to 15 minutes. Rinse with water.</p>	
<p>STEP 5</p>	<p>Apply 3 drops of the Peel Young and 2 pumps of the White Bright Orchid Cream to the skin and massage until absorbed. On top of this, apply 1 pump of the Lift U Up Cream and massage into the skin until absorbed. The skin will look clear and have a uniform tone. NOTE: You may add Caffeine Renewing Mask as an additional step in order to exfoliate and strengthen the pigmentation treatment process. The patient returns home with the mask on and doesn't wash it off until the morning. *If you apply the Caffeine Renewing Mask, make sure you send the client home with the correct products for continued use at home.</p>	

ROSACEA

PROFESSIONAL ROSACEA PROTOCOL INTRO

Rosacea can be challenging to treat due to its sensitive, reactive nature.

Our Professional Rosacea Protocol simplifies the process, giving you a clear and effective step-by-step treatment plan that calms, strengthens, and revitalizes rosacea-prone skin. Utilizing specialized, professional-grade formulations—such as gentle exfoliants, soothing serums, and intensive calming masks—this protocol ensures visible improvements with maximum comfort and safety for your clients. Each step has been carefully designed to restore balance, soothe irritation, and fortify the skin's natural protective barrier, empowering you to deliver consistently excellent results.

PROFESSIONAL ROSACEA PROTOCOL | CLINIC TREATMENT

STEP

1

Clean the skin with 3 pumps of the **Herbal Cleansing Mousse**.

STEP

2

Apply 10 Pumps of the **One Step Peel** and 10 pumps of the **One Solution Serum**. Wet hands with warm water and massage into the skin until fully absorbed.

STEP

3

In a bowl, mix 1/3 teaspoon of each of the following: **Relaxing Caviar & Honey Mask** and **Calm Forte + Cream Mask**. Add to that, 5 pumps of **D. Herbal Calm Forte**. Apply to skin and leave for up to 15 minutes. You can cover with some cold gauze. Rinse with water.

STEP

4

Apply 2 pumps of the **One Step Peel**, 2 pumps of the **Mezotox Serum**, 2 pumps of the **Zit Out Serum**, and 2 pumps of the **D. Herbal Calm Forte**. Massage into skin until fully absorbed.

PEELING

PROFESSIONAL PEELING PROTOCOL INTRO

Give your clients clearer, brighter, and smoother skin with our easy-to-follow Peeling Protocol, designed specifically for skincare professionals. This targeted treatment tackles acne breakouts, stubborn pigmentation, and signs of aging head-on, making it ideal for clients of all skin types.

Each step of the protocol builds on the previous one, using powerful yet gentle active ingredients to visibly refine skin texture and boost overall complexion.

By closely following these simple yet detailed steps and specialized techniques, you'll achieve impressive, consistent results that keep your clients coming back.

Integrating this professional-grade peel into your practice means you'll confidently deliver lasting improvements your clients will love.

PROFESSIONAL PEELING PROTOCOL | ACNE/PIGMENTATION/ANTI-AGING/ALL SKIN TYPES

<p>STEP 1</p>	<p>*Before starting any peeling procedure, the patient must use the melanin depressor, White Bright Orchid Cream at least 7-14 days before coming to the clinic.</p> <p>Clean the skin with 4 pumps of the Herbal Cleansing Mousse using a circular motion, gently massage into the facial area. Rinse with water.</p>	
<p>STEP 2</p>	<p>Put 5 pumps of the Whitening Peeling Acid and 5 pumps of the Crystel & Silk Peeling into a bowl and mix well. Using a cotton pad, apply to the skin with a circular motion. On top of this, apply 2 pumps of the One Step Peel and massage into the skin.</p>	
<p>STEP 3</p>	<p>Apply 1 teaspoon of the Caliente Peeling Mask to the facial area. On top of this, apply 2 - 4 pumps of the Light Tomato Peel. Massage both into the skin for approximately 5-10 minutes. The length of time is dependent on the skin type and/or thickness. Rinse with water. Within the first minute, there will be a feeling of warmth that will soon disappear.</p>	
<p>STEP 4</p>	<p>Apply 4 - 10 drops of Peel Young to the skin until it's fully absorbed.</p>	
<p>STEP 5</p>	<p>In a bowl, mix ½ teaspoon of the Urban Orchid Night Cream and ½ teaspoon of the Grand Active Serum. Massage the cocktail into the skin until it's fully absorbed.</p>	
<p>STEP 6</p>	<p>An Optional Step for a more dramatic peel Depending on how strong of a peel you want to create, apply a thin, medium, or thick layer of the Caffeine Renewing Cream Mask to the skin. The client should not wash their face until the day following the treatment. The peel will work on its own in 48 hours. Do not peel the dead skin yourself!! You can repeat this process every 3 weeks. Make sure you send your client home with the right products to maintain the results at home. (The Rejuvenating Kit is recommended for this procedure)</p>	

ANTI-AGING |

PROFESSIONAL ANTI-AGING PROTOCOL INTRO

SR Cosmetics' Professional Anti-Aging Protocol combines extensive scientific research with the power of potent botanical extracts. All of our products were created for skincare professionals seeking advanced treatments with noticeable, lasting results.

We harness the therapeutic properties of natural ingredients, carefully balanced and integrated with advanced cosmetic science, ensuring each product remains free from harmful additives such as SLS, parabens, artificial colors, petrochemicals, and mineral oils. Specifically targeting age-related concerns, this protocol deeply hydrates, soothes, firms, and actively repairs skin damage caused by environmental and chronological aging, enhancing cellular renewal for revitalized, luminous, and visibly rejuvenated skin.

PROFESSIONAL CAVIAR ANTI - AGING PROTOCOL

<p>STEP 1</p>	<p>Apply ½ teaspoon of the Caliente Peeling Face Mask to the face in an even layer.</p>	
<p>STEP 2</p>	<p>Immediately after, apply 3 - 4 pumps of Herbal Cleansing Mousse and massage together with the Caliente Peeling Mask for 3 - 4 minutes. Rinse with water.</p>	
<p>STEP 3</p>	<p>In a bowl mix: 4 pumps of Mezotox Serum 4 pumps of D. Immediate Ageless Serum 3 pumps of Light Tomato Peel 4 pumps of Caviar Fast Wrinkle Filler 10 drops of One Step Peel Spread the mixture on the entire facial area. With wet hands and warm water, massage into the skin for 10 minutes.</p>	
<p>STEP 4</p>	<p>Mix ½ teaspoon each of the Relaxing Caviar & Honey Mask and the Calm Forte + Cream Mask with 5 pumps of the Vitamin C Serum. Apply mixture on the skin and leave for 15 minutes. Rinse with water.</p>	
<p>STEP 5</p>	<p>Finish with 4 drops of the Peel Young. On top of that, apply 2 pumps of the Caviar Fast Wrinkle Filler and a thin layer of the Caviar Total Revitalizer. Massage in until absorbed.</p>	

SUPER MEZOTOX |

PROFESSIONAL SUPER MEZOTOX PROTOCOL INTRO

This advanced mesotherapy protocol combines four breakthrough technologies—Micro-Needling, Red Light Phototherapy, Precision Nano-Needles, and a targeted Serum Delivery System—to significantly enhance skincare treatments.

Client Benefits:

■ Intense Hydration & Youthful Skin:

Boosts natural hyaluronic acid production for immediate plumping, hydration, and rejuvenation.

■ Enhanced Volume & Firmness:

Addresses sunken cheeks, lips, neck, décolleté, and hands, creating a firmer, fuller appearance.

■ Improved Skin Texture & Tone:

Visibly reduces hyperpigmentation, dark circles, enlarged pores, scars, wrinkles, stretch marks, and post-acne imperfections.

Deliver transformative results and exceptional client satisfaction with this advanced mesotherapy protocol.

PROFESSIONAL ANTI-AGING PROTOCOL

For skin firming and post-acne scar lightening that will impart a glamorous and smooth look, use this **Super Mezotox Device Protocol**

For the 10 days prior to the day of treatment, client must apply the **White Bright Orchid Cream** in the morning and evening.

STEP

1

Clean the skin with 3 pumps of the **Herbal Cleansing Mousse** and rinse with water.

STEP

2

Using a cotton swab, apply 10 pumps of the **Whitening Peeling Acid**. Go over the facial area 2 - 3 times.

STEP

3

On top of that, apply 4 pumps of the **One Step Peel** and 1 - 2 pumps of the **Mezotox Serum** over the entire facial area. After that, gently massage 8 drops of the **Peel Young** into the skin.

STEP

4

In a small bowl, press two pumps of the **Light Tomato Peeling** and with a fan brush, gradually apply to the area where you will be using the device. Turn on the **Super Mezotox Device** and use the 5D needle at a depth of 0.5mm - 1.5mm. The depth will depend on the skin thickness. Press the button on the device until you see a purple or red light appear. Begin the exfoliation of the skin using light, easy back and forth motions, while slightly supporting and very slightly firming the skin. **NOTE:** Exfoliation is carried out over the entire facial area using a 5D needle for up to 10 minutes. At times, you may expect to see some minor peeling effect or redness of the skin. This is revitalization of the blood circulation.

PROFESSIONAL ANTI-AGING PROTOCOL

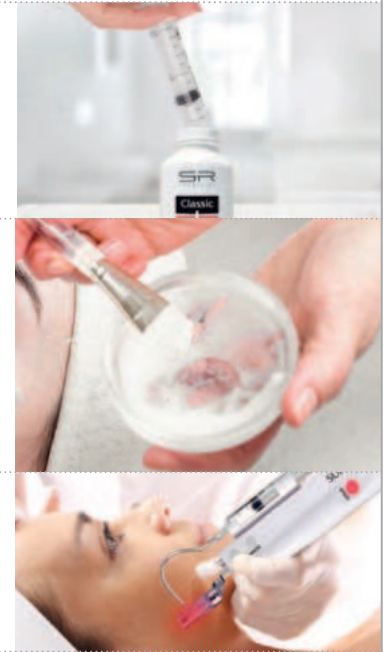

STEP 5

Into the container that comes with the device, use the tube to aspirate 2 cc of the **Mezotox Serum**.
Connect the mouth of the tube to a 42/36 nano needle head. Switch the needle depth to 0.5 mm (or a depth that matches the skin thickness and its initial condition following the documented anamnesis).

In a bowl mix the following:
5 pumps of **Active Face Serum & H.A**
5 pumps of **D. Immediate Ageless Serum**
3 pumps of **Grand Active Serum**
5 pumps of **One Step Peel**
Apply 1/3 of the quantity, gradually adding the rest in the course of the designated treatment.

NOTE: The entire procedure takes approx. 10-15 minutes.

Important: Every press of the thumb on the UP button will discharge a measured amount of the **Mezotox Serum** on top of the skin for the microneedling process

OPTIONS FOR COMPLETION OF TREATMENT:

- 1) In the event the skin is mildly irritated, conclude with ½ teaspoon each of the **Relaxing Caviar & Honey Mask** and the **Calm Forte + Cream Mask** and leave on for up to 20 minutes.
- 2) For oily skin types, conclude with ½ teaspoon each of the **DMAE Face Mask** and the **Calm Forte + Cream Mask** and leave on for up to 20 minutes.

AFTER YOU RINSE THE MASKS YOU CAN CHOOSE FROM THE FOLLOWING:

- 1) If you wish to achieve an immediate brightening and glow effect, conclude with 2 pumps of the **One Step Peel** and 2 pumps of the **White Bright Orchid Cream**. Massage into the skin until fully absorbed.
- 2) If you wish to induce peeling, conclude with 1/3 teaspoon of the **Caffeine Renewing Mask** and you send the client home with the mask on until the next morning. (A mild tingling or burning sensation may occur during that time. That is normal.)

IN THE EVENT OF TIRED, WRINKLED AND PIGMENTED SKIN:

We recommend adding 5 pumps of the **White Bright Orchid Cream** to the mixture in Step 5.

PROFESSIONAL SCARS PROTOCOL | SUPER MEZOTOX DEVICE

FIRMING, LIGHTENING OF POST-ACNE SCARS FOR A YOUNG, GLAMOROUS, AND SMOOTH LOOK.

<p>* STEP 1</p>	<p>Client must use the White Bright Cream for at least 10 days before the treatment in the morning and evening</p>	
	<p>Clean the skin with 3 pumps of the Herbal Cleansing Mousse. Rinse with water and continue by using a cotton swab to apply 5 pumps of the Whitening Peeling Acid. Following that, apply 8 drops of the Peel Young to the entire facial area. On top of that, apply 4 pumps of the One Step Peel until it's fully absorbed.</p>	
<p>STEP 2</p>	<p>In a bowl, put two pumps of the Light Tomato Peeling and using a fan brush, apply gradually to the area where you are working with the device. Turn on the Super Mezotox Device with a 5D needle at a depth of 0.5mm - 1.5mm, depending on the thickness of the skin. Press the button until you see a purple or red light. Start the exfoliation of the skin using light, easy back and forth motions, while slightly supporting and very slightly firming the skin. NOTE: Exfoliation is carried out over the entire facial area using a 5D needle for up to 10 minutes. At times, you may expect to see some minor peeling effect or redness of the skin. This is revitalization of the blood circulation. Additionally, you can apply no more than 4 drops of Peel Young to the facial skin during the exfoliation process. Don't Remove!</p>	
<p>STEP 3</p>	<p>Into the second container that comes with the device, aspirate 2 cc of the Mezotox Serum. Connect the mouth of the tube to a 42/36 nano needle head. Switch the needle depth to 0.5 mm (or a depth that matches the skin thickness and its initial condition following the documented anamnesis). Apply 3 pumps of the Smooth Face Cream and on top of that, 5 pumps of the Grand Active Serum to the skin. At the same time, begin "injecting" the serum components into the skin, using a rapid puncture motion both horizontally and vertically. IMPORTANT: Do not forget that in order to "inject", you have to give an occasional quick press on the UP button to discharge a measured amount of the Mezotox Serum. NOTE: The entire procedure takes approx. 10-15 minutes.</p>	
<p>STEP 4</p>	<p>Apply a mixture of 1/3 teaspoon of each of the following: Relaxing Caviar & Honey Mask, Calm Forte + Cream Mask and DMAE Face Mask. On top of that, apply 5 pumps of the One Step Peel. After up to 20 minutes, rinse with cool water.</p>	
<p>STEP 5</p>	<p>To conclude, apply 2 pumps of the D. Immediate Ageless Serum and on top of that, 2 pumps of the D. Herbal Calm Forte. IMPORTANT: Make an appointment for follow-up treatment in 2-3 weeks, according to the scar's appearance. Note: You can send the client home with the Smooth Skin Kit for the necessary continued treatment.</p>	

PROFESSIONAL SCARS/ANTI-AGING PROTOCOL | SUPER MEZOTOX DEVICE

<p>STEP 1</p>	<p>Clean the face with 3 pumps of the Herbal Cleansing Mousse.</p>	
<p>STEP 2</p>	<p>Using a fan brush, gradually apply 5 pumps of the One Step Peel and 2 - 3 pumps of the Light Tomato Peel to the area where you are working with the device. Turn on the Super Mezotox Device with a 5D needle at a depth of 0.5mm - 1.5mm (depending on the thickness of the skin). Press the button until you see a purple or red light. Start the exfoliation of the skin using light, easy back and forth motions, while slightly supporting and very slightly firming the skin.</p> <p>NOTE: Exfoliation is carried out over the entire facial area using a 5D needle for up to 10 minutes. At times, you may expect to see some minor peeling effect or redness of the skin. This is revitalization of the blood circulation. Don't remove!</p>	
<p>STEP 3</p>	<p>Into the second container that comes with the device, aspirate 2 cc of the Mezotox Serum. Connect the mouth of the tube to a 42/36 nano needle head. Switch the needle depth to 0.5 mm (or a depth that matches the skin thickness and its initial condition following the documented anamnesis). In a bowl, mix the following: 5 pumps of Caviar Fast Wrinkle Filler 2 pumps of Urban Orchid Night Cream 5 pumps of Grand Active Serum 2 pumps of Smooth Face Cream 1/3 teaspoon of Caffeine Renewing Mask Gradually apply 1/3 of the mixture, adding the rest during the course of the treatment.</p> <p>NOTE: The entire procedure takes approx. 10-15 minutes. You should expect a peel if you use the Caffeine Renewing Mask. IMPORTANT: Every press of the thumb on the UP button will discharge a measured amount of the Mezotox Serum on top of the skin for the microneedling process.</p>	
<p>STEP 4</p>	<p>Conclude with 3 drops of the Peel Young and above it, apply 2 pumps of the D. Immediate Ageless Serum. Massage until it's fully absorbed. On top, apply 2 pumps of the D. Herbal Calm Forte. Massage until it's fully absorbed.</p> <p>IMPORTANT: Schedule the next treatment after 2-4 weeks.</p>	

PIGMENTATION PROTOCOL I SUPER MEZOTOX DEVICE

<p>STEP 1</p>	<p>Clean the face with 3 pumps of the Herbal Cleansing Mousse.</p>	
<p>STEP 2</p>	<p>In a bowl, mix the following: 2 pumps of Silk Peeling & Crystalis, 6 pumps of Whitening Peeling Acid, 10 drops of Peel Young, and 10 pumps of One Step Peel. Turn on the Super Mezotox Device and use a 5D needle at a depth of 0.5mm - 1.5mm, depending on skin thickness. Press the button until you see a purple or red light. Start the exfoliation of the skin using light, easy motions back and forth, while slightly supporting and very slightly firming the skin. NOTE: Exfoliation is carried out over the entire facial area using a 5D needle for up to 10 minutes. At times, you may expect to see some minor peeling effect or redness of the skin. This is revitalization of the blood circulation.</p>	
<p>STEP 3</p>	<p>Into the second container that comes with the device, aspirate 2 cc of the Mezotox Serum. Connect the mouth of the tube to a 42/36 nano needle head. Switch the needle depth to 0.5 mm (or a depth that matches the skin thickness and its initial condition following the documented anamnesis). In a bowl, Mix the following: 5 pumps of One Solution Serum, 5 pumps of White Bright Orchid Cream, 2 pumps of Lift U Up Cream, 5 pumps of Grand Active Serum, and 2 pumps of Urban Orchid Night Cream. Start by applying 1/3 of the quantity and gradually adding the rest over the course of the designated treatment. NOTE: The entire procedure takes approx. 10-15 minutes. IMPORTANT: Every press of the thumb on the UP button will discharge a measured amount of the Mezotox Serum on top of the skin for the microneedling process.</p>	
<p>STEP 4</p>	<p>In a bowl, mix the following: 1/3 teaspoon of Relaxing Caviar & Honey, 1/3 teaspoon of Calm Forte + Cream Mask, and 5 pumps of D. Herbal Calm Forte. Leave on the skin for up to 15 minutes then wash with warm water.</p>	
<p>STEP 5</p>	<p>Apply 2 pumps of the One Step Peel until fully absorbed. On top of that, apply 2 pumps of the D. Immediate Ageless Serum until it's fully absorbed. To conclude, apply 2 pumps of the D. Herbal Calm Forte until fully absorbed. NOTE: 1/4 teaspoon of the Caffeine Renewing Mask can be applied instead of doing Step 5 at the end of the treatment. This will exfoliate and strengthen the pigmentation treatment process. The patient returns home with the mask and washes it only in the morning. Don't forget to send the client home with the right products to help with the peel healing.</p>	

PROPHYTO COLLECTION

CRAFTED FROM THE GIFTS OF MOTHER NATURE

This botanical skincare line is enriched with truffle oil and rare plant extracts to boost skin cell renewal, enhance natural cellular energy, and repair the skin's microflora. Packed with antioxidants, these elixirs nourish the skin's microbiome while helping to even tone, smooth fine lines, and calm stress-induced irritations.

REBORN COLLECTION

ADVANCED PLANT STEM CELL & EXOSOME SKINCARE

The ReBorn Collection combines advanced plant stem cell technology and exosomes to support skin regeneration, reduce visible signs of aging, and restore a healthy, youthful appearance.

Powered by science and inspired by nature, this high-performance line promotes smoother, revitalized, and resilient skin.

URBAN ORCHID COLLECTION

- ANTI-POLLUTANTS FLOWER

Urban Orchid blends phytotherapy with cold-pressed organic orchid extract to help balance the skin's natural PH and combat inflammation caused by modern lifestyle stress. These creams are designed to reduce cellular-level pigmentation and support the skin's natural repair processes for a healthier, more resilient complexion.

CAFFEINE COLLECTION

BEAUTY BEAN

The energizing caffeine stimulates hyaluronic acid production, reduces puffiness and dark eye circles, while gently exfoliating to reveal renewed skin.

NOT JUST
A COMPANY,
BUT A
FAMILY
WORKING TO
MAKE THE
WORLD A
MORE
BEAUTIFUL
PLACE

DMAE COLLECTION

NATURAL TREATMENT ENRICHED WITH HEMP SEED OIL

This revolutionary skincare line is enriched with hemp seed oil and DMAE, a compound that supports the body's natural production of acetylcholine to restore skin elasticity and reduce fine lines and wrinkles. The powerful combination calms skin lesions, lightens age spots, tightens skin, and protects against daily environmental stressors for a visibly smoother, more youthful appearance.

EVERPURE COLLECTION

NATURAL SKIN REJUVENATION FROM THE AMAZON

The EverPure line harnesses the rejuvenating power of rare Amazonian plants and herbs, known for their exceptional skin-renewing properties. Featuring patented ingredients, this advanced collection includes an Eye Treatment Cream to boost skin function around the eyes and a Smoothing Cream to reduce stretch marks and post-acne blemishes.

CAVIAR COLLECTION

MICRO CAPSULAR TECHNOLOGY

This premium biomimetic line mimics the properties of black caviar, combining proteins, active amino acids, and Vitamin A derivatives to enrich and tighten collagen in the skin. Each capsule contains 50% hyaluronic acid to smooth wrinkles and fine lines, dissolving gently with a light massage for a youthful, radiant glow.

ONE COLLECTION

BOTANICAL PHARMACY INSPIRED BY JAPANESE HERBS

These extracts have been proven to be highly effective in treating many different types of skin issues, even those caused by exposure to air-born pollutants. Recommended for the rehabilitation of Acne, Rosacea, Atopic Dermatitis, and Pigmentation Spots.
